Construction begins June 4 on Sheyenne River Bridge west of Enderlin

On Monday, June 4, the North Dakota Department of Transportation (NDDOT) will begin a maintenance project on the Sheyenne River Bridge west of Enderlin. During the project, ND Hwy 46 will be closed for approximately 19 miles (from ND 32 west of Enderlin west to ND Hwy 1). Construction will consist of structural rehabilitation, resurfacing, grading, abutment and guardrail work. During construction motorists will have to take an alternate route.

Alternate routes:

The northeast detour will begin at the intersection of ND 46 and ND 32 The southeast detour begins at the intersection of ND 32 and ND 27 The northwest detour begins at the intersection of ND 46 and ND 1The SW the detour begins at the intersection of ND 27 and ND 1.

The project is expected to be complete by the end of August. See attached map for detour route.
